■ **First Pachinko Machine from Fields and Daiichi**

“CR Sakigake Otokojuku” is the first pachinko machine to result from the tie-up with Daiichi Group announced in May 2014.

The machine incorporates elements of the “Sakigake Otokojuku” comic, bringing to life the opening volume of “Kyoura Daiyon Kyousatsu” in addition to “Dai Ishin Pahren Seiha” to realize a game that seamlessly links from the original story through the ordinary mode of pachinko to the big win mode. Furthermore, the accessories installed in the new “Dual Circle” chassis further enliven the gameplay, allowing players to really feel caught up in the world of “Sakigake Otokojuku.”

This machine is not only for pachinko enthusiasts, but also a wide range of comic and anime fans. The “Sakigake Otokojuku” machine is scheduled for delivery in August 2015 to pachinko halls throughout Japan.
