Launch of New Pachinko Machine “CR Tengen Toppa Gurren Lagann”

FIELDS CORPORATION (Head office: Shibuya-ku, Tokyo; President & COO: Takashi Oya) announces the nationwide release of the new pachinko machine from Mizuho Corp, “CR Tengen Toppa Gurren Lagann.”

■ Tengen Toppa Gurren Lagann

The animated TV series “Tengen Toppa Gurren Lagann” was first broadcast in 2007, and is widely regarded as a masterpiece of the “*odo nekketsu*” (an emotional story that follows the development of the central characters) robot anime genre. Characters who lay bare their innermost feelings, relationships between closely linked humans, storylines that encourage empathy with the main characters by following their growth and development, powerful robot battle scenes that focus on the energy of the characters—these are some of the anime’s manifold charms that have attracted legions of fans. Even after the conclusion of the TV series, the franchise has continued to expand its fan base through a variety of media developments and popular content: movie versions of the anime were released in theaters, DVDs were launched, the anime was turned into a manga, and games based on the series were also spawned.

■ New Pachinko Machine “CR Tengen Toppa Gurren Lagann”

In “CR Tengen Toppa Gurren Lagann,” famous quotations from the anime are included in every aspect to energize the game experience. Various gimmicks also combine to recreate the worldview of the anime, and instill the game with the excitement of the TV series itself. In addition, the “Tengen Toppa Battle,” which is accessed after a big win, allows players to enjoy battles complete with their own storylines as well as game functions that change with every stage. Furthermore, in order to respond to the diversification of player needs, two game specifications are provided: the high-continuation type “Gurren Lagann ver.” and the high-volume acquisition type “Lazengann ver.”

This machine is not only for pachinko enthusiasts but a wide range of anime fans. The “CR Tengen Toppa Gurren Lagann” machine is scheduled for delivery February 2016 to pachinko halls throughout Japan.
