■New Pachislot Machine “Super Street Fighter IV Pachislot Edition”

“Super Street Fighter IV Pachislot Edition” is an ART-type pachislot machine based on the concept of “Meet! Fight! and Win!” It combines the flow of meeting a rival, changing players’ expectations with skill, and giving out the winnings, with the game system of pachislot machines in order to recreate the vision of combat games. It delivers the presence of being in battle and the exhilaration of winning, both of which is the appeal of the original game.

This machine is not only for pachislot enthusiasts but a wide range of people, including video game fans. The machine is scheduled for delivery in April 2016 to pachinko halls throughout Japan.
