FIELDS CORPORATION (Head office: Shibuya-ku, Tokyo; President & COO: Tetsuya Shigematsu) announces the nationwide release of a new pachislot machine from D-light Co., Ltd., “Pachislot GARGANTIA ON THE VERDUROUS PLANET.”

■GARGANTIA ON THE VERDUROUS PLANET

“GARGANTIA ON THE VERDUROUS PLANET” is an animated TV series broadcast in April 2013. This sci-fi action adventure differs from typical robot animes that focus on fighting scenes between the protagonists and their enemies; instead, the anime is set on an ocean-going fleet of ships known as GARGANTIA, and the story begins with a meeting between the young hero and heroine of the story.

GARGANTIA ON THE VERDUROUS PLANET has been developed into a variety of different media forms—including comics, novels, OVAs*, online games and merchandise—and is a popular franchise that is seeking to expand its fanbase.

*OVA is an abbreviation of Original Video Animation, and refers to animated films and series made for release in home video formats without being shown on TV or in theaters.
