■ *Million Arthur* cross-media expansion

The *Million Arthur* series of games has expanded to cover a variety of platforms, including smartphone, home console and PC games, while a VR game was announced in May this year. In addition, *Million Arthur* has developed into a cross-media IP that also comprises comics, merchandise, and web animations. In 2014, it was made with the participation of Fields into a live-action movie, *Jitsuzai-Sei Million Arthur*, and broadcast on Television KANAGAWA.

■ New machine “*Kai-Dou-Sei Million Arthur*”

Kaku-San-Sei Million Arthur, the highly popular original game, has now launched as a pachislot machine. The pachislot game system incorporates card-battle RPG gameplay—the best-loved element of the series—while all aspects of the game system, including its music and images, help represent the worldview of the original. Players can enjoy the worldview of playing as Arthur and battling for dominance of Britain in this new pachislot machine.

This machine is not only for pachinko and pachislot enthusiasts but a wide range of people, including the game fans. The machine is scheduled for delivery in September 2017 to pachinko halls throughout Japan.
