Fields Corporation (Head office: Shibuya-ku, Tokyo; President and CEO: Hidetoshi Yamamoto) announces the nationwide release of Rodeo Co., Ltd.'s new pachislot machine "Onimusha 3." Details of this release are given below.

"Onimusha 3" features the characters of Capcom Co., Ltd.'s video game *Onimusha 3: Demon Siege*, the latest sequel to its blockbuster *Onimusha* series. Since first making its appearance on the video game scene in January 2001, the *Onimusha* series has become a gaming phenomenon, selling more than 6.8 million units worldwide.

This new pachislot machine was developed with comprehensive support from Capcom, the creator of the *Onimusha* series video games. Capcom's know-how and expertise were extensively utilized to make this original new pachislot machine. The meticulous attention to detail by top creators and the incredibly realistic visuals achieved through Capcom's technology remain unchanged, while the hard-hitting action, image rendering, and other aspects of the *Onimusha* series have made a perfect transition to this pachislot machine.

The pachislot machine's large-size 20-inch liquid crystal "doughnut-vision" screen enables the player to experience truly amazing visuals and get the full impact of the awesome contents of "Onimusha 3." The stunningly beautiful full 3D polygon images allow the player to feel the exciting rush of fighting battles and experience a wide range of breathtaking scenes, all while enjoying pachislot. "Onimusha 3" provides great enjoyment for not only regular enthusiasts of pachislot, but also for many new players who have long been fans of the *Onimusha* series video games.

K-1 fighter Masato and popular model Sena Asakura are giving their whole-hearted support to "Onimusha 3," appearing in television commercials to promote this new pachislot machine. Pachislot fans should be able to enjoy "Onimusha 3" in pachinko halls throughout Japan from the middle of March.

Sales of "Onimusha 3" have been incorporated into the Fields Corporation business plan for the fiscal year ending March 2005.
