Launch of Bisty's Pachinko Machine "CR Daimajin"

Fields Corporation (Head office: Shibuya-ku, Tokyo; President and CEO: Hidetoshi Yamamoto) announces the nationwide release of Bisty Co., Ltd.'s pachinko machine "CR Daimajin." Details of this release are given below.

The new pachinko machine "CR Daimajin" merges star baseball player Kazuhiro Sasaki with the character from the 1960s movie "Daimajin." Sasaki, the former major leaguer who played for the Seattle Mariners and is now a pitcher for the Yokohama BayStars, is affectionately known as Daimajin. The popular movie "Daimajin" and the main character of the same name made their debut in 1966 as the first special effects period drama in movie history. "CR Daimajin" breaks new ground by featuring a highly popular baseball star who is still active in the sport in a pachinko machine.

This new machine fuses the fighting spirit of Sasaki with the superhuman power of the Daimajin character, creating an exciting and dynamic visual experience that combines the true thrills of baseball with the mightiness of Daimajin. The pachinko machine's large-size 10.4-inch LCD screen provides the ideal stage to watch an impressive range of exciting scenes, including the transformation into the raging Daimajin, and Sasaki mowing down opposing batters with his unbeatable weapon; the forkball. A tremendous sense of anticipation is created by the transformation of Daimajin in the bonus modes. By linking the Chance Button with the action taking place on the LCD screen, this machine gets the player actively involved in the game, providing tremendous enjoyment for not only regular enthusiasts of pachinko, but also for a wide range of players, including baseball fans and movie buffs.

Plans call for "CR Daimajin" to be available in pachinko halls for the enjoyment of players throughout Japan from early May.
