< Reason for the Revisions >

Regarding the market environment, Fields Corporation anticipated demand for the replacement of pachislot machines on an unprecedented scale for the first half of the fiscal year under review given the deadlines stipulated for the use of old regulation machines. To address such high demand, the Company aggressively introduced new regulation pachislot machines. In expectation of high replacement demand for pachinko machines in the second half, we have strategically focused on sales of pachinko machines.

Given recent favorable sales of pachinko machines, which are more profitable than pachislot machines, net sales will be as forecast while profitability will be higher than announced on November 6, 2007. Specifically, during the fourth quarter (January 1 to March 31, 2008), *CR Neon Genesis Evangelion—'The Angels are back again,'* Bisty's pachinko machine for which delivery started at the end of January, has been highly acclaimed, and we are receiving a significant number of orders.

Preparation of the projections for the consolidated fiscal year ending March 31, 2008, is under way. Given the wide range of business models from the Company's consolidated subsidiaries, the preparation is rather complicated. We will announce our projections as soon as the specific estimated amounts have been determined.
