* Previously announced on February 5, 2008

< Reasons for Revisions >

In the “Notice on the Revisions to the Performance Projections for the Non-consolidated Fiscal Year Ending March 31, 2008” released as of February 5, 2008, the Company made an upward revision to its full-year forecast due to the favorable performance of the Company’s core business—sales of pachinko/pachislot machines. Likewise, as to its consolidated earnings of the same year, the above revision was made upon confirmation of the strong performance of each of the Group companies. Specifically, D3 Inc., a core company in the Game Field, confirmed that it intended to release a major global title within the year ending March 31, 2008. The above upward revisions regarding net sales and operating income are due to robust sales of pachinko/pachislot machines. Ordinary income takes into account a partial equity method investment loss. As a result, net income is expected to be ¥5.5 billion, exceeding the initial forecast.

Caution regarding forward-looking statements

The forward-looking statements made in this report such as performance perspective are based on currently available information. There might be cases in which actual results of future business performance differ from our forecasts depending on changes in diverse conditions.
