Amount changed (B-A)	5,357	1,133	997	729	————
% of change	18.5	25.2	22.2	29.2	————
(Reference) First half, year ended March 31, 2008	58,735	8,565	8,660	2,467	7,111.09

< Reasons for Revisions >

With regards to the first half, in the Pachinko/Pachislot (PS) Field, the pachinko machines sales business progressed steadily and net sales, operating income, ordinary income and first half net income in both consolidated and non-consolidated earnings exceeded our expectation.

Within the Pachinko/Pachislot area, with last year's large-scale reduction in the pachislot machine market due to the move towards replacement demand for pachislot machines compliant with the new regulations, coupled with the fact that the industry voluntarily refrained from the replacement of machines out of consideration for the country's hosting of the G8 Summit at Lake Toya from June to mid-July 2008, forecasts for the first half were made modest, but with the introduction of "CR Seven Samurai" pachinko machine and "Neon Genesis Evangelion - That time has come, now they're waiting for us" pachislot machine sales in the second quarter (July – September), have progressed favourable and have exceeded expectations.

In addition, with regards to the first half, extraordinary income from insurance income etc, totaling 160 million yen and extraordinary losses from suspension of film production in a subsidiary company of 782 million yen have been added.

Furthermore, with the current uncertainty in the world financial environment, Fields Corporation has not revised the forecasts for consolidated and non-consolidated earnings released on May 14, 2008. Revisions will be made as and when necessary.

(Note)

The forward-looking statements made in this report such as performance perspective are based on currently available information. There might be cases in which actual results of future business performance differ from our forecasts depending on changes in diverse conditions.
