1. Qualitative information on quarterly financial results

(1) Qualitative information on consolidated operating results

1) Overview of operations for the first half ended September 30, 2011 (April to September 2011)

The main reasons for the above results are as follows.

Taking into account shortages in electronic components due to the effects of the Great East Japan Earthquake, which occurred in March 2011, the Company plans to focus on increasing the sales of pachinko/pachislot (PS) machines during the second half of this fiscal, with releases of multiple major pachinko and pachislot titles scheduled in the second half.

In accordance with this plan, the Company released 1 pachinko machine title and 2 pachislot machine titles in the first half of the fiscal year.

As for other entertainment businesses, some of the Company's mobile related companies invested in the launch of new products and services.

The status of each segment is as follows.

2) Analysis of operations for the first half under review by business segment

[Pachinko/Pachislot (PS) Field segment]

The sales of pachislot machines for the second quarter of the fiscal year (July to September 2011) have continued to increase since the first quarter of the year. The number of pachislot machines installed nationwide increased by 7.5% year-over-year to 1.44 million machines* as of the end of the September 2011, which slightly increased the total number of pachislot and pachinko machines installed nationwide by 0.4% year-over-year to 4.54 million machines*.

Although there were continued concerns regarding the effects of the earthquake on the procurement of electronic components including semiconductor components required for pachinko/pachislot machines, the supply chain has recovered in the second quarter under review and suppliers have been strengthening their systems to resume normal supply level.

This summer, approximately 5,000 pachinko halls in the metropolis Tokyo and 15 prefectures mainly in the Kanto and Tohoku regions closed on a 2 to 3 weekdays per month rotating basis for the 3 months from July to September from the concerns regarding electricity shortages due to the effects of the earthquake. Although there were fears about a decrease in sales in these halls because of the reduced number of business days, their sales remained unaffected in particular due to closed days being weekdays and an increase in customers in other halls that were open.

In the meantime, after the earthquake, pachinko halls maintained or even improved their ability to attract customers in a situation in which the supply of new machines decreased slightly. We see this as a sign that the earthquake has led people to reevaluate the inherent function of a pachinko hall serving as part of the local community, and that pachinko/pachislot machines have become a part of life in Japan as a readily available popular entertainment choices.

In these circumstances, the Company views the pachinko/pachislot (PS) business not only based on changing market needs but also from a wide entertainment perspective, and has been committed to improving the competitiveness of the PS market with other leisure markets. During the fiscal year under review, the Company has also been implementing initiatives to revitalize the market by focusing on planning, developing and selling products that serve as great entertainment.

In the pachislot machine sales business for the first half under review, the Company released two new models, *SAMURAI* 7 and *Kaze no Youjinbou—Memory of Butterflies*, and recorded the sales of *MOBASLO Evangelion—for your own wish*, which was released during the fourth quarter of the previous fiscal year. In the meantime, in the pachinko machine sales business, the Company released 1 new model, *CR The story of ayumi hamasaki—introduction*, which features a major Japanese superstar and recorded sales of more than 70,000 machines.

As a result of the above, during the consolidated first half under review, there were unit sales of pachislot machines amounting to 61,990 (4,518 machines down year-over-year) and unit sales of pachinko machines coming to 89,264 (137,356 machines down year-over-year). Consequently, the Pachinko/Pachislot (PS) Field posted net sales of \$29,568\$ million (23.2% down year-over-year) and operating income of \$1,711 million (81.2% down year-over-year).

^{*} The total number of installations nationwide is based on a survey conducted by the Company.

<Pachinko/Pachislot machine titles sold during the consolidated first half under review>

Pachinko machine sales titles	Month released	
CR The story of ayumi hamasaki—introduction	July 2011	(Bisty Co., Ltd.)
Total number of pachinko machines sold (machines)	89,264	

Pachislot machine sales titles	Month released	
[Ongoing sale title from the previous fiscal year] MOBASLO Evangelion—for your own wish	March 2011	(Bisty Co., Ltd.)
SAMURAI 7	May 2011	(Bisty Co., Ltd.)
Kaze no Youjinbou—Memory of Butterflies	August 2011	(Rodeo Co., Ltd.)
Total number of pachislot machines sold (machines)	61,990	

(Note) The total number of pachinko/pachislot machines sold includes the number of machines other than the above titles sold via agency sales.

[Mobile Field segment]

Internet access in Japan for both mobile devices and personal computers has continued to develop against faster communication speeds and the improvement of communication access networks. In the area of mobile devices, in particular, smartphones and tablet computers continued to become popular, and the demand for entertainment content, such as games and electronic books, has been increasing.

In this market environment and with the aim of increasing the number of paying members, the Company is striving to expand its on-line services, including those for mobile devices, by leveraging Pachinko/Pachislot-related content (an area of particular strength for the Company) as well as enhancing new services in other fields with its own content.

In on-line service fields (including with regard to mobile devices), FutureScope Corporation and IP Bros. Incorporated invested in services using pachinko/pachislot (PS) related content, though some services did not progress as per the original plan, and aggressively took a variety of measures with the aim of increasing the number of paying members. In services using other than PS-related content, the Company conducted research and development and invested in such services by using content assets held by the Fields Group companies, including the Company's related businesses, and aggressively committed to increasing profitability in the on-line service field.

As a result of the above, for the consolidated first half under review, the Mobile Field posted net sales of \$1,149 million (8.5% up year-over-year) and operating income of \$62 million (68.8% down year-over-year).

[Sports Entertainment Field segment]

During the first half under review, the Company improved its management of sports related business.

The Company implemented a drastic reorganization of Japan Sports Marketing Inc. (JSM), which handles the sports business of the Company, as stated in our news release dated August 23, 2011, "Notice regarding a Simplified Absorption-type Divestiture between Fields Corporation and its Subsidiary and a Special Liquidation of the Subsidiary."

After the fitness club business of JSM was divested (in a simplified absorption-type divestiture), the Company succeeded to the business based on projections of continued growth opportunities for JSM's fitness club business, backed by the resources of Fields Corporation, as well as the great synergy between the business and Fields Group. The Company decided to close all other JSM business upon JSM's dissolution. This decision is based on the drastic changes in the market environment in which JSM does business, and these changes are believed to greatly hinder the creation of new profit opportunities in this environment.

As a result of the above, the Sports Entertainment Field posted for the consolidated first half under review net sales of \$1,031 million (4.7% down year-over-year) and operating loss of \$34 million (versus an operating loss of \$140 million for the same period of the previous fiscal year).

[Other Field segment]

After a series of consideration on issues in its management revealed in about 1 year and half since it joined the Fields Group, Tsuburaya Productions Co., Ltd., which handles video related business, has launched the development of its future plans. In addition to revitalizing its own existing IP (Intellectual Property) such as the Ultraman Series, the company has been committed to taking a variety of measures with the aim of improving its brand value by increasing profitability through the development of new IP.

Digital Frontier Inc., in addition to the production of computer graphics (CG) for games and pachinko/pachislot machines, expanded its video production business by handling the overall CG production of the movie, "Tekken: Blood Vengeance 3D," which was released in September 2011. Faced with the issue of expanding its production line to meet the increasing requests

for producing full-length CG including movies and games, the company has committed to strengthen its system by securing lines of production not only domestically but overseas as well.

Lucent Pictures Entertainment, Inc., promoted the planning of the magazine and digital versions of a 3D HD visual magazine by taking advantage of its 3D video related technologies. In the meantime, the company also promoted a variety of tie-up plans with the aim of achieving solid results with the large project, "BERSERC I THE HIGH KING'S EGG" (scheduled to be premiered in February 2012), an animated movie that the company has planned and produced since its establishment.

As for content development related business, the publisher HERO'S Inc., which was jointly established with Shogakukan Creative Inc., continued to prepare for the launch of its premiere issue of its future-style comic, "HERO'S Monthly" on November 1, 2011, and focused on strengthening the foundations required for the development and creation of highly-quality IP. In the future, the company will enrich the magazine's content while aggressively promoting cross-media development in a variety of fields including the pachinko/pachislot related field.

As a result of the above, the Other Field posted net sales of ¥2,299 million (12.1% down year-over-year) and operating loss of ¥139 million (versus an operating income of ¥58 million for the same period of the previous fiscal year) for the consolidated first half under review.

(Note) Net sales reported by the individual segments are gross of inter-group net sales or transfers.

(2) Qualitative information on the consolidated financial position

(Assets)

Current assets amounted to ¥32,250 million, down ¥18,800 million since the end of the previous fiscal year. The principal factor behind this was a decrease in notes and accounts receivable—trade.

Tangible fixed assets amounted to ¥10,596 million, up ¥506 million since the end of the previous fiscal year.

Intangible fixed assets amounted to \(\frac{\pma}{4}\),857 million, down \(\frac{\pma}{2}12\) million since the end of the previous fiscal year.

Investments and other assets amounted to ¥15,397 million, up ¥2,636 million since the end of the previous fiscal year. This primarily reflected an increase in deferred tax assets.

As a result of the above, total assets amounted to ¥63,102 million, down ¥15,869 million since the end of the previous fiscal year.

(Liabilities)

Current liabilities amounted to ¥10,205 million, down ¥17,381 million since the end of the previous fiscal year. The principal factors behind this were a decrease in notes and accounts payable—trade and a decrease in accrued income taxes.

Fixed liabilities amounted to ¥4,211 million, down ¥151 million since the end of the previous fiscal year. This was mainly attributable to a decrease in redemption of corporate bonds.

As a result of the above, total liabilities amounted to ¥14,417 million, down ¥17,532 million since the end of the previous fiscal year.

(Net assets)

Net assets amounted to ¥48,685 million, up ¥1,663 million since the end of the previous fiscal year. This was primarily reflected an increase in retained earnings.

(Analysis of cash flows)

Cash and cash equivalents (hereinafter referred to as "cash") increased by \(\pm\)2,153 million since the end of the previous fiscal year and amounted to \(\pm\)17,785 million at the end of the first half of the year ending March 31, 2012.

(Cash flows from operating activities)

Net cash provided by operating activities amounted to \$5,332 million (\$11,199 million of income in the previous year). This was mainly attributable to a decrease of \$24,829 million in notes and accounts receivable—trade, a decrease of \$14,678 million in notes and accounts payable—trade, and current income taxes paid of \$4,142 million, etc.

(Cash flows from investing activities)

Net cash used in investing activities amounted to ¥1,932 million (¥2,738 million of expenditure in the previous year). This was mainly attributable to expenditure for purchases of tangible fixed assets totaling ¥816 million, expenditure for purchases of intangible fixed assets totaling ¥531 million, and expenditure for purchases of investment securities totaling ¥400 million, etc.

(Cash flows from financing activities)

Net cash used in financing activities amounted to \$1,241 million (\$2,580 million of expenditure in the previous year). This was mainly attributable to dividends paid totaling \$829 million, and redemption of corporate bonds totaling \$370 million, etc.

(3) Qualitative information on projections for the consolidated business results

(Unit: Million yen)

	Forecast for the year ending March 31, 2012	Results for the year ended March 31, 2011	Year-over-year change
Net sales	100,000	103,593	(3.5%)
Operating income	14,000	13,136	6.6%
Ordinary income	14,000	13,684	2.3%
Net income	8,000	7,520	6.4%

For this fiscal year, the Company plans to focus on increasing the sales of pachinko/pachislot (PS) machines during the second half, taking into account shortages in electronic components and other factors due to the effects of the Great East Japan Earthquake, as stated above. Amid rising expectations for further growing market momentum in the second half of this fiscal, the Company is scheduled to release multiple major pachinko/pachislot machine titles able to lead the revitalization of the market, and will aggressively strive to be committed to activities involved in receiving orders.

For these reasons, the consolidated forecast earnings for the year ending March 31, 2012 remain unchanged from those stated in "Summary of Financial Information and Business Results (Consolidated) for the Year Ended March 31, 2011 (Japan GAAP)," released on May 12, 2011.

2. Summary information (other)

(1) Transfer of important subsidiaries during the year under review

None

(2) Application of the accounting method specific to quarterly consolidated financial statements

Assessment of tax expenses

The Company applies the method that reasonably estimates an effective tax rate to be assessed on income before income taxes for the year ending March 31, 2012 after accounting for the tax effects of temporary differences and multiplies income before income taxes during the first half of the year ending March 31, 2012 by such estimated effective tax rate.

(3) Changes in accounting principles and accounting estimates, and revisions/restatements

None

3. Quarterly consolidated financial statements

(1) Quarterly consolidated balance sheets
