Launch of Enterrise's New Pachislot Machine "Resident Evil 5"

Fields Corporation (Head office: Shibuya-ku, Tokyo; President and COO: Takashi Oya) announces the nationwide release of the new pachislot machine from Enterrise Co., Ltd., **"Resident Evil 5."**

"Resident Evil" (or, as it is known in Japan, "Biohazard") is a popular series of video games. Since the first game was released in 1996, a total of more than 50 million games* has been sold. The newest video game, "Resident Evil 6," will go on sale soon. The live-action, Hollywood-produced film, "Resident Evil: Retribution" was released in September, and "Resident Evil: Damnation"—the second fully computer animated feature-length film in this series—will be released in the near future.

This pachislot machine uses an exclusive "Resident Evil" machine body to depict the tension and realism created by the world of the original video game. The Assist Replay Time (ART) system heightens users' sense of surprise, tension, and excitement through special visual and audio effects that depict the widespread virus infections in the original video games.

This machine, which increases the number of new thrills through a feeling of tension and unseen fear, is not only for pachislot enthusiasts, but also a wide range of other people including video game and movie fans.

The "Resident Evil 5" pachislot machine is scheduled for delivery in December 2012 to pachinko halls throughout Japan.

Unauthorized reproduction or
usage is strictly prohibited

* As of June 30, 2012
