Fields Corporation (Head office: Shibuya-ku, Tokyo; President and COO: Takashi Oya) announces the nationwide release of the new pachislot machine “**Kaiji 3.**”

*Kaiji* (created by Nobuyuki Fukumoto) is a popular comic series serialized in *Young Magazine* (Kodansha) since 1996. It was later turned into comic books, and has subsequently evolved into various new media, including an animation and live-action films, and continues to gain many new fans.

The first pachislot machine in the *Kaiji* series, launched in 2004, attracted fans with a full-face LCD screen, which was an industry first, and with expressive visuals. In addition to the full-face LCD screen, this third machine in the series features a touch panel for improved game play, while the visuals convey the atmosphere and competitiveness of the original comic.

This machine is not only for pachislot enthusiasts but a wide range of comic fans.

The “Kaiji 3” machine is scheduled for delivery in September 2013 to pachinko halls throughout Japan.
