Fields Corporation (Head office: Shibuya-ku, Tokyo; President and COO: Takashi Oya) announces the nationwide release of the new pachislot machine from Enterrise Co., Ltd., “**Pachislot Monster Hunter: Gekka Raimei.**”

Ever since CAPCOM Co., Ltd. released the first action hunting video game in the “Monster Hunter” series in 2004, the series has proven to be hugely popular, boasting sales of 28 million units (as of December 4, 2013). Throughout the series, the games have reached a broad player demographic and created a social phenomenon known as the “Monster Hunter Craze.” Even now, the number of fans continues to grow.

The “Pachislot Monster Hunter: Gekka Raimei” pachislot machine allows users to experience the exhilarating “life of a hunter” by fusing pachislot game functions and a new system with the world of the original games that sees the player confront giant monsters amidst magnificent natural environments.

This machine is not only for pachislot enthusiasts but a wide range of video game fans.

The “Pachislot Monster Hunter: Gekka Raimei” machine is scheduled for delivery in March 2014 to pachinko halls throughout Japan.
