Fields Corporation (Head office: Shibuya-ku, Tokyo; President & COO: Takashi Oya) announces the nationwide release of the first own-brand entry from NANASHOW Corporation, "Pachislot BERSERK."

The comic *BERSERK* (created by Kentaro Miura / HAKUSENSHA.INC.) is a dark fantasy that began serialization in 1989. The stories, set in medieval Europe and depicting a detailed and deep world of swords and magic, have won enthusiastic fans both in Japan and abroad, with worldwide sales of exceeding 35 million copies. The series has since been adapted into an animated TV series and video games, and a movie trilogy planned and produced by Fields group has been released in theaters since February 2012.

The first entry by the NANASHOW brand, "Pachislot BERSERK," is packed full of symbolic characters, well-known scenes, and exciting battles, recreating the epic world of the original work. The chassis, developed specially for "BERSERK," features reels and gimmicks that work in conjunction with its LCD display to bring an unprecedented level of wonder to the player.

NANASHOW Corporation is an emerging game machine manufacturer that joined the Japan Game Machine Industry Association* in 2013. The company researches new forms of entertainment for the next generation and develops new game machines based on flexible and original ideas. In May 2014, NANASHOW and Fields agreed to utilize their respective technology, knowhow, IP, and other management resources to stably provide high-quality products, and formed a business alliance for a joint enterprise.

This machine is not only for Pachislot enthusiasts but a wide range of people, including comic and movie fans.

The "Pachislot BERSERK" machine is scheduled for delivery in March 2015 to pachinko halls throughout Japan.

* The Japan Game Machine Industry Association consists of 35 pachinko/pachislot machine manufacturers (as of December 2014).
