Launch of New Pachislot Machine “Resident Evil 6”

Unauthorized reproduction or usage is strictly prohibited.

FIELDS CORPORATION (Head office: Shibuya-ku, Tokyo; President & COO: Takashi Oya) announces the nationwide release of the new pachislot machine from Enterrise Co., Ltd., “Resident Evil 6.”

■ “Resident Evil”

The “Resident Evil” (or, as it is known in Japan, “Biohazard”) series has represented the survival horror video game genre since the first title was released in 1996. It has enjoyed huge worldwide popularity, recording total sales of 65 million games*. The series has also spread widely to other media, with a range of contents developed including Hollywood movies, books and collectable goods.

*As of March 31, 2015

■ Latest pachislot creation, inheriting the "genes" of predecessors

The latest edition of the “Resident Evil” pachislot machine, “Resident Evil 6,” further advances the series, combining the original grand story with the essential “genes” of the previous machines’ game functions. Players will be able to immerse themselves in a visceral pachislot experience, feeling a mix of fear, excitement and emotion.

This machine is not only for pachislot enthusiasts but a wide range of video game fans. The “Resident Evil 6” machine is scheduled for delivery July 2015 to pachinko halls throughout Japan.
