Launch of “MAJESTIC PRINCE”
First Pachislot Machine in the HERO’S Project Series

usage is strictly prohibited.

FIELDS CORPORATION (Head office: Shibuya-ku, Tokyo; President & COO: Takashi Oya) announces the nationwide release of the new pachislot machine from D-light Co., Ltd., “MAJESTIC PRINCE.”

■ “MAJESTIC PRINCE”

“MAJESTIC PRINCE” is an IP (Intellectual Property) jointly developed by Sotsu Co., Ltd. based around a world view and characters derived from researching sought-after hero images. It began comic serialization from the first issue of *HERO’S Monthly* in November 2011, and was later broadcast as a TV animation in collaboration with TOHO animation from April 2013. The comic and animation share the same world view, and this cross-media quality has been utilized in cultivating the IP. In February 2014, a game was released in collaboration with BANDAI NAMCO Entertainment Inc., and now it is making its debut as a pachislot machine.

■ First pachislot machine in HERO’S project series

“MAJESTIC PRINCE” is the first pachislot machine of an IP from *HERO’S Monthly* magazine.

The machine features an industry-first movable reel frame on a special chassis designed in the image of “RED FIVE,” the robot ridden by the hero Izuru Hitachi. In addition, for “HERO RUSH” AT function, players can fully enjoy the feel of the original work with gameplay that changes according to different characters selected from members of the “Zannen 5” team to which Izuru belongs.

This machine is not only for pachislot enthusiasts but a wide range of comic and anime fans.

The “MAJESTIC PRINCE” machine is scheduled for delivery in November 2015 to pachinko halls throughout Japan.
