Launch of New Machine “Pachislot INUYASHA”

FIELDS CORPORATION (Head office: Shibuya-ku, Tokyo; President & COO: Tetsuya Shigematsu) announces the nationwide release of a new pachislot machine from Rodeo, “Pachislot INUYASHA.”

■ About “INUYASHA”

“INUYASHA” is a popular manga that was serialized for 12 years between 1996 and 2008 by the manga artist Rumiko Takahashi. With its attractive characters and profound stories, INUYASHA was cherished over its lifetime by a large number of male and female fans, and boasted total sales of over 40 million volumes.

Moreover, the popularity of INUYASHA was not limited to manga alone. A TV anime version was broadcast in 2000, and it has been developed into a major intellectual property (IP) across a wide range of media, including films, plays and games.

■ New Pachislot Machine “Pachislot INUYASHA”

In order to recreate the worldview of the manga, which is widely regarded as a masterpiece that will stand the test of time, the new pachislot machine “Pachislot INUYASHA” fuses the distinctive characteristics of the IP with pachislot game functions.

- Abundant production volumes: So that players can fully experience the worldview of the original manga, “Pachislot INUYASHA” incorporates abundant production volumes that surpass those of previous Rodeo pachislot machines.
- The “Fragments of the Four Souls” hold the key: Following the story of the original manga, collecting the “Fragments of the Four Souls” is also the key to creating chances on the pachislot machine.
- Includes famous scenes from the anime: During ART (Assist Replay Time), the machine resurrects and replays famous scenes from the anime.

The new machine enables both fans of the original anime as well as players to whom it is not familiar to enjoy the worldview of INUYASHA through pachislot.

“Pachislot INUYASHA” is not only for pachinko and pachislot enthusiasts but for a wide range of people, including manga fans and anime fans. The machine is scheduled for delivery this winter to pachinko halls throughout Japan.
