FIELDS CORPORATION

## Notice of workplace vaccinations (second time) of the Coronavirus Disease (COVID-19) jointly with Toyukyo

FIELDS Group reports that it completed the workplace vaccinations (second time) of the COVID-19 jointly with Tokyo Pachinko and Pachislot Cooperative Association (Toyukyo) for the member companies of the association and the Group's business partners.

The objective of this vaccinations is to ensure the security and safety of the pachinko and pachislot industry and everyone involved with the Group, and to contribute to the development of the industry. The vaccinations cover approximately 3,000 inoculation applicants including our Group's employees and their families, member companies of the Toyukyo and neighboring prefectural amusement cooperatives member companies, and our business partners.

### ■Overview of workplace vaccination in October 2021

#### • Date of implementation

October 19 (Tuesday), 21 (Thursday), 22 (Friday), 27 (Wednesday) and 28 (Thursday)

#### • Venue

FIELDS CORPORATION Head Office (Shibuya-ku, Tokyo)

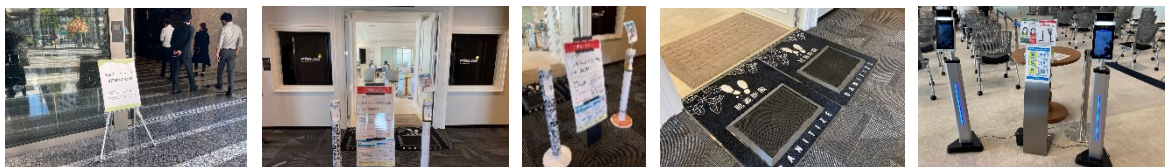

#### • Vaccines used

Vaccines manufactured by Takeda Pharmaceutical Company Limited/ Moderna, Inc.

#### • Subjects/ number

Employees and staff of our group business partners, member companies of Toyukyo, neighboring prefectural amusement cooperatives (five prefectures: Kanagawa, Chiba, Saitama, Yamanashi, and Shizuoka), and others/ approximately 3,000 people

\*This is the second time of vaccination for the target person who has the vaccination at our Company in September 2021.

Signboard at the first floor of the head office/ entrance to the site (installed automatic hand disinfection sprayers, shoe sole sterilization, and thermometer)

Reception and confirmation of documents (place to fill in documents, reception standby)

Inside the venue (receive the inquiry by a physician in the front room, and vaccination in the back room)/ Issuance of immunization certificates and immunization records/ Waiting place for follow-up observation

■Review of those who have been immunized

We received the following reviews from those who received the immunization.

“I felt relieved to receive the vaccination at the same time with my children. I appreciated them”. (Man in his 50s)

“The first and second vaccinations were both smooth, and also the female doctor who injected me kindly responded, so I received the vaccination peacefully. I really appreciated them”. (Woman in her 30s)

“Everyone who handled each of us was kind. The guide and flow were smooth and easy to understand, and there was nothing to trouble with. It was also helpful to get antipyretics”. (Woman in her 40s)

We operate the infection control measures in accordance with strict rules to prevent the spread of infections; the employees work from home if they can, and those who need to go to office thoroughly take their temperature and disinfect.

Going forward, our Group will continue to give top priority to preventing the spread of infections both inside and outside the companies and to ensuring the safety of our business partners, participants and employees and their families, and will promptly decide and implement response policies based on policies and action plans by the government and health centers.
