■ About the *Mushoku Tensei: Jobless Reincarnation* Animated Series

The series depicts the story of the protagonist, a 34-year-old shut-in who neither works nor interacts with others, spending his days playing games and browsing the internet in his room. One day, he is evicted from his home and meets an untimely end after being hit by a truck. When he regains consciousness, he realizes that he has been reincarnated as a newborn baby in a fantasy world of swords and magic. Driven by the regrets and memories of his previous life, he overcomes harsh trials together with a cast of colorful companions on a grand adventure—a fantasy tale detailing the protagonist’s “second chance at life” to “live seriously this time.”

The animated series is based on the light novel series of the same name written by Rifujinnamagonote and has surpassed 18 million copies (print and digital) in total circulation. As a pioneering “isekai reincarnation” story—where one is reborn in another world after death—it is one of the most popular titles on the novel self-publishing site “Shousetsuka ni Narou” and has inspired a wave of similar works. The light novel series maintained its top position on Shousetsuka ni Narou’s cumulative rankings for several years following its release in 2012, reflecting the strong support received from many light novel fans.

Season 1 of the animated series was first aired in 2021. The first half of Season 2 was aired in 2023 with the second half following in 2024. This year is the fifth anniversary of the animated series and Season 3 is scheduled to be aired in July. In addition, various projects have been planned for release this year, including a new mobile game and merchandise.
