# Launch of New Pachislot Machine *L SYNDUALITY Noir*

TSUBURAYA FIELDS HOLDINGS INC. is pleased to announce that its consolidated subsidiary, FIELDS CORPORATION (hereafter "FIELDS"), will release a new pachislot machine, ***L SYNDUALITY Noir.***

This new machine will be released as a smart pachislot machine.

## ■ About *SYNDUALITY*

*SYNDUALITY* is a science fiction multimedia project created by Bandai Namco Filmworks, Bandai Namco Entertainment, and BANDAI SPIRITS. It is a cross-media initiative spanning anime, games, figurines, comics, novels, and merchandise. Centered on the theme of "misunderstandings between humans and AI," the project depicts interconnected stories set approximately 200 years in the future across the game (a prequel) and the anime (a sequel).

- **TV Anime Overview:** The project was launched by the TV anime *SYNDUALITY Noir,* which kicked off the overall project, featured an original story concept by Hajime Kamoshida and original character designs by neco. The series was aired in two parts, the first half airing from July to September 2023 and the second half from January to March 2024 on TV Tokyo and other networks to high acclaim. The story is an adventure following Kanata (voiced by Takeo Otsuka), a young boy who meets Noir (voiced by Aoi Koga), an AI-equipped humanoid robot (also known as "MAGUS") with lost memories, as they confront the mysteries hidden in a post-apocalyptic world. The drama between humans and AI, the meticulously crafted and expansive world, and the charming character depictions attracted significant attention.
- **Multi-Platform Expansion:** Actively expanding a broad range of spinoff works such as novels and comics, alongside the release of hobby products tied in with the anime.

## ■ Launch Schedule

The machine is scheduled to be available at pachinko halls nationwide starting January 2027, targeting a wide audience including pachinko and pachislot enthusiasts as well as fans of the series.
